DETAILED ACTION

1. The outstanding Action is in response to Applicant's telephonic request on 11/15/2010 for an Examiner's Amendment cancelling the solely rejected claim 58.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Richard Rosati on 11/15/2010.

The application has been amended as follows:

Claim 58 has been cancelled.

Allowable Subject Matter

3. Claims 30-32, 34-36 and 38-57 are allowed.
4. The following is an examiner's statement of reasons for allowance:

As for claim 30, the specific limitations of “and connected to a gas supply unit, wherein the measuring head includes a gas chamber formed by a substantially bell-shaped distributing device for applying gas to the sample plate, wherein the bell-shaped distribution device is connected to the gas supply unit” in the combination as claimed are neither anticipated nor made obvious over the prior art made of record.

Claims 31-32, 34-36 and 38-47 are also allowable for depending on claim 30.

Regarding claim 48, the specific limitations of “calculating a theoretical impedance spectrum for at least one selected material sample using the error minimization computation, based on the impedance spectrum measured for the at least one material sample and on the starting values for the components of the respective circuit equivalent; determining fit values for the components of the respective circuit equivalent; determining a validation magnitude for the calculated, theoretical impedance spectrum; and determining an evaluation variable by a comparison of at least one of the fit values for the components of the respective circuit equivalent to a reference value” in the combination as claimed are neither anticipated nor made obvious over the prior art made of record.

Claims 49-57 are also allowable for depending on allowable claim 48.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
